Guangdong Liancun Pharmaceutical Technology Co., Ltd.

Fish oil softgels

18/12 / 33/22 / 50/25 / 50/40 EPA/DHA profiles. EE or TG, up to 1 g oil fill, and flexible bottle counts.

Softgel format | Brand-owned products | Bottled supply

Project parameters

Product format	Fish oil softgels
EPA / DHA profiles	18% / 12%; 33% / 22%; 50% / 25%; 50% / 40%. Each available as EE or TG.
Oil fill & bottle count	Up to 1000 mg oil per softgel. 60 / 100 / 200 / 300 softgels per bottle; custom counts available.
Typical bottled MOQ	3,000 bottles; confirm the formula, bottle count and packaging
Delivery reference	Within 30 days after payment; confirm project conditions and delivery point
Quotation basis	Agreed composition, testing, packaging, order volume and delivery terms

What to include in your brief

- ↗ Target country and intended sales channel
- ↗ Oil source and EPA/DHA specification
- ↗ Softgel size and count per bottle
- ↗ Initial volume and preferred purchasing schedule
- ↗ Required testing, labels and packaging

Next step

Share the target specification and market to start a feasibility and quotation discussion.

Protein powder

Define protein source, serving size and packaging around your product brief.

Powder format | Brand-owned products | Project-specific packaging

Project parameters

Product format	Protein powder
Starting specification	Protein source, target composition, serving size and flavour requirements
Minimum order	Confirm by formula and pack format; the 3,000-bottle reference is not a universal powder MOQ
Delivery reference	Project schedule confirmed after reviewing formulation, packaging and payment terms
Quotation basis	Formula, ingredient requirements, net weight, packaging and order volume

What to include in your brief

- ↗ Target country and product positioning
- ↗ Required protein source and composition
- ↗ Serving size, flavour and ingredient preferences
- ↗ Pack type, net weight and initial quantity
- ↗ Allergen, testing and labelling requirements

Next step

Share the target specification and market to start a feasibility and quotation discussion.

Nutrition packs

Bring together component specifications, pack structure and a clear order plan.

Combination formats | Brand-owned products | Feasibility-led development

Project parameters

Project type	Combination nutrition pack or boxed product
Starting specification	Components, unit quantities, pack structure and intended market
Minimum order	Quoted per component and pack configuration; no blanket box MOQ
Delivery reference	A project-specific schedule follows component and packing review
Quotation basis	Component sourcing, manufacturing, packing, testing and total order volume

What to include in your brief

- ↗ Target country and intended sales channel
- ↗ Components and quantities in each pack
- ↗ Number of packs in each retail box
- ↗ Packaging concept and initial order quantity
- ↗ Required documents and launch timing

Next step

Share the target specification and market to start a feasibility and quotation discussion.
